ENSURE WIDEST DISSEMINATION

On 20 February 2013, while participating in a Zone Recon Situational Training Exercise Lane at the National Training Center during Rotation 13-04, a Soldier received severe injuries to his head and face. Soldier was evacuated by air to Universal Medical Center in Las Vegas NV, where he later died due to complications of his injuries.

An Accident Investigation Team from the U.S. Army Safety Center is currently investigating the accident.

RECOMMENDATIONS:

- **Review and follow dismounting and remounting procedures from Army Combat Vehicles.**
- **Utilize all crew members for visual safety**
